ADDITIONAL COMMENTS:

Parking: Dan will need a loading or parking permit for the day that he will appear at your venue (if applicable).

Assistance: When needed, please have one person on hand to facilitate the load-in, performance and load-out.

Power & Lights: Professional sound and lighting adds a lot to the show and your best effort in that area will certainly pay off. However, Dan does not have any specific requirements. He has a small sound system and can provide his own sound when needed. He will need one grounded outlet within 20 feet of the stage that has at least two inputs.

Sound Check: In order to avoid last minute stress, sound check and load-in should begin at least one hour before the performance time.

Venue & Merchandise: The venue and/or stage area should be non-smoking. Distractions such as pool tables, ping-pong tables or TVs mean that you're not getting your money's worth out of the performance, so avoid them if at all possible. In addition, a 4'-8' table or other surface for selling CDs should be provided and positioned in a well-trafficked area with a wall behind it.

The venue must have written permission in order to record (audio or visual) the performance. If the event is canceled by the Employer more than 4 weeks prior, then the Employer agrees to pay half of the amount stated above. If the event is canceled by the Employer within 4 weeks, then the Employer agrees to pay the full amount.
